## We Came As Romans, Beliefs

What is this whispered thief? Is it a lie? Is it a lie? Does fabrication begin at belief?

Who steals my years to keep all to themselves? Is it only just the ground we stand upon? Is it only just the ground we stand upon?

Is it only just the ground we stand upon? I've asked you, yet heard no reply Is it only just the ground we stand upon? Will I just soak into this earth when I die? Have I fallen before I finished?

Who answers my questions when ears do not listen? When silence speaks in volumes I've heard no reply Heard no reply!

This doubt that clouds what I perceive as truth The unnerving sense that there is nothing left An illogical view where purpose is gone Who wills these groundless conceptions?

Find faith in life And whatever will keep you breathing Find faith in life And whatever will keep you breathing

Whatever will keep you believing That we are not meaningless That we are not meaningless

Retain what you have learned because love is an endless wonder It's a never-ending knowledge, this is our only solution

I believe in me I believe in you And I believe that we are not meaningless

(And whatever will keep you believing we are not meaningless) (And whatever will keep you believing we are not meaningless)

I believe in me I believe in you And I believe that we are not meaningless
