

Ween, She's Your Baby

Sometimes its not enough
to take a Monday stroll
or play some rock-n-roll
or smoke another bowl. But the
only thing I do when I
find Im feeling blue is
get a little taste of you.

Sometimes I feel so good,
sometimes I feel so bad.

Often I get mad,
even when Im glad.

I havent got a clue,
but I know just what to do.

Get a little taste of you!

I get a little taste of you

I get a little taste of you

I get a little taste of you

I get a little taste,

suck a little face,

taste a little waste with you.

(interlude)

I get a little taste of you

I get a little taste of you

I get a little taste of you

I get a little taste,

suck a little face,

smear a little paste on you.

I get a little taste of you

I get a little taste of you

I get a little taste of you

I get a little taste,

suck a little face,

taste a little waste with you.
