

Weezer, All My Favorite Songs

All my favourite songs are slow and sad
All my favorite people make me med.
Everythink that feels so good is bad, bad, bad
All my favourite songs are slow and sad
I don't know what's wrong with me
I don't know what's wrong with me

Ilove parties but i don't go
Ten i feel bad when i stay home
Cause i need a friend when i take a walk
I liek spacing out when soemebody talks
I wanna be rich but i feel guilty
I fall in love with everybody who hates me

All my favourite songs are slow and sad
All my favorite people make me med.
Everythink that feels so good is bad, bad, bad
All my favourite songs are slow and sad
I don't know what's wrong with me
I don't know what's wrong with me

Dreamy morning
Thinking about life
Trying to find my way through hell
Sometimes i wish i was on an Island
But then i'd miss the sound of sirens

All my favourite songs are slow and sad
All my favorite people make me med.
Everythink that feels so good is bad, bad, bad
All my favourite songs are slow and sad
I don't know what's wrong with me
I don't know what's wrong with me

I don't know what's wrong with me
