## Weezer, Thought I Knew

Sorry about my past life Sorry but we just missed Sorry it had to end up like this

Sorry if I caused you pain Sorry I forgot your name Sorry but you left me out in the rain

Thought I knew you better then Thought I knew your intentions Thought I knew, but I didnt have a clue Not a single damn thing was true

Sorry if I caused you harm Sorry Im no good luck charm Sorry you didnt end up in my arms

Thought I knew you better than Thought I knew your intentions Thought I knew, but I didnt have a clue Not a single damn thing was true

Now that I, worlds gone down Weve traded away, blew out the spark And now were left with broken hearts Tryin to find a new place to start

Thought I knew you better then Thought I knew your intentions Thought I knew, but I didnt have a clue Not a single damn thing

I knew you better then
Thought I knew your intentions
Thought I knew, but I didnt have a clue
Not a single damn thing was true, was true
