

# Westlife, Dont Get Me Wrong (Bonus Track - 30)

Don't get me wrong  
I've played my part and it's over  
I'm tired of being strong  
For hiding that I'm not yeah  
Don't get me wrong  
You've played your part and I think you know  
This love's for real  
It's time to show just how I feel

Time after time I refuse to see why  
I can't go on without you by my side

Baby I just wanted you to know that if you care you could be part of my life  
Baby don't you know we could be doing this forever and be doing all right yeah  
Time after time this moments been on my mind  
Now I've left it behind oh don't get me wrong

Don't get me wrong  
You bruised my heart and it's aching  
It won't take you long  
To see that I'm in pain  
Don't get me wrong  
If you run off now you'd sure be mistaking  
This loves so real  
And baby this is how I feel yeah

Time after time I've been trying to deny  
I can't go on without you by my side

Baby I just wanted you to know that if you care you could be part of my life  
Baby don't you know we could be doing this forever and be doing all right yeah  
Time after time this moments been on my mind  
Now I've left it behind just don't get me wrong  
Don't get me wrong no, no baby oh yeah

Time after time I've been trying to deny  
I need the nearness of you to get by

Baby I just wanted you to know that if you care you could be part of my life  
Baby don't you know we could be doing this forever and be doing all right no, no  
Time after time this moments been on my mind  
Now I've left it behind, don't get me wrong

Baby I just wanted you to know that if you care you could be part of my life  
Baby don't you know we could be doing this forever and be doing all right  
Time after time this moments been on my mind now I've left it behind  
I've left it behind don't get me wrong
