

Westlife, Turn around

Some people are lucky baby
I guess I am to, love found me
And I found you
And every time I think it can get better
You do something new
And Im renewed
And when it gets cold and I think its over
Look what you go and do

Chorus

Every time I turn around, you give me a reason
For feeling the way that I do
Every time I turn around, you give me a reason
To put my faith in you
Even when you let me down, I forgive you
Cause I know that youre feeling it to
Anytime I turn around, you make me believe in
The things that I already knew

Verse 2

You wrapped me up in kisses baby
Head to toe let the whole world stare
I dont care
You make me breakfast in bed just to show me
No-one wants me more, Im secure

Bridge

Chorus

Turn around, turn around, turn around
Turn around, turn around, turn around
Cause you know and I know
That its hard to let go so why not hold on
Hold on to us
Cause you know and I know
That its hard to let go so why not hold on

Chorus

Bridge

Every time I turn around, turn around, turn around,
Bridge
Even when you let me down, turn around, turn around,
Bridge
Anytime time I turn around, turn around, turn around,
Bridge
Every time I turn around
