

When Saints Go Machine, Love And Respect (ft.

Love and respect for my peers, man /4x

Love and respect for my peers, man /3x

Love and respect for my peers.

Can we meet somewhere
Get inside, light, see cash
Cross your legs, break your neck
It's a bitch sometimes, love is the answer
Putting the funk to live.

Love and respect for my peers, man /4x

Love and respect for my peers, man /3x

Love and respect for my peers.

Stay in training, no shotgun without a sin
Watch your play, nations stopped to bleed
It's been gunshot to kill, love is a monster
Teach me how to rob and steal.

Peace God, it's no need for vexing
I self-loath, the mask of my section
360, providing my direction
I progress no matter the election
Extraordinary, something like an x man
Something like Malcolm, Michael, ??
Feeling like I'm garbage, man I'm talking x men
Party on currently, locked in a tour van
Smoking on some head bang, listening to psy gun
Bamboo, expand, brand new, grand pool
Ice cube PE, damn prints, Rp Jimmy
I'm cool but I'm righteous, teach me
Wise, intelligent, the devil is irrelevant
Surge of benevolent, elegant, elephant
Cruising through the ghetto corridors on chrome
I salaam alaikum to the nation, I'm gone.
