White Lies, Take It Out On Me

So talk, erase those worried eyes Lay your trouble out beside me and sit And so I'll sympathize Leave it feeding there inside me

And take it out on me I'm in love with the feeling And take it out on me Maybe hooked on the healing And take it out on me I'm in love with the feeling of Being used

Dig deep where you're afraid to go Pick the stitches and unbind me, have key That pain I need to know Every cut you feel defines me

And take it out on me I'm in love with the feeling And take it out on me Maybe hooked on the healing And take it out on me I'm in love with the feeling of Being used

Tell me, tell me Tell me what is going wrong Help me, help me Now the nights are getting long /2x
