

White Lies, Tokyo

call Tokyo
call New York
it's just the same different love
call Jupiter,
call Lyon
find the right
and find the wrong

go breathe it
walk your walk
come back when you're ready to talk
but heart ringing
take the call

our life is in print to play
flip the set if it's starting to fray
if there's nothing new to crave

cos you know
that every city has a Chinatown

call Tokyo
call New York
it's just the same different love
call Jupiter,
call Lyon
find the right
and find the wrong
call Tokyo
call New York
it's just the same different love
call Jupiter,
call Lyon
find the right
and find the wrong
find the right
and find the wrong

write back or just write it off
hasn't everybody suffered enough
with the carcass left of us

your every unhappy cruise
you've never looked good in blue
and I am the sunset
I am the view

cos you know
that every city has a Chinatown

call Tokyo
call New York
it's just the same different love
call Jupiter,
call Lyon
find the right
and find the wrong
call Tokyo
call New York
it's just the same different love
call Jupiter,
call Lyon
find the right
and find the wrong

find the right
and find the wrong

Get me London
Get me Seoul
say it's me who's calling
girl, I am lower than a dog
and my ego's falling
get me Bangkok
get me Rome
where all the hope is hiding?
just now I am numb and I am alone
so come back to me crying

call Tokyo
call New York
it's just the same different love
call Jupiter,
call Lyon
find the right
and find the wrong
call Tokyo
call New York
it's just the same different love
call Jupiter,
call Lyon
find the right
and find the wrong
find the right
and find the wrong
