

# White Skull, White Lady

Don't you remember  
We spent the night  
You can't refuse me  
I can't survive  
The pain of living twice at same time  
Destroyed my senses, undertook my mind  
Heaven in my dreams  
Hell in real life  
The pain of knowing you can't be mine  
You can't imagine how do I feel  
That's the way you're gone ahead  
Don't you remember  
We spent the night  
You can't refuse me  
I can't survive  
I've heard your silence  
I've heard your no  
I feel just like slidin' in the black hole  
Heaven in my dreams  
Hell in real life  
The pain of knowing you can't be mine  
You can't imagine how do I feel  
That's the way you're gone ahead  
Heaven knows... Just another city'n'place  
Heaven knows the pain.
