

# Whitney Houston, Love will save the day

Sometimes life can make you crazy  
It can really put your body to the test  
You try so hard to make sure everything goes  
right  
And you find you've only wound up with a mess  
It's a common situation  
Even though you feel abandoned and alone  
Child, you ain't the first to experience the hurt  
So don't panic when you hit the danger zone  
Chorus:  
What you need's a little change of heart  
Forget this fear and frustration  
Love will always play the greater part  
When your battles wear you down  
Here's my advice -  
When you're feeling down and out  
And you've got troubles on you mind  
Love will save the day  
When you're feeling full of doubt  
And fear has got you in a bind  
Love will save the day  
When your worlds falling apart  
All you have to do is say a prayer  
And love will save the day  
There's an answer in your heart  
So let your light shine on my dear  
And love will save the day  
Love will save the day (X4)  
Many things in this world bring you down  
It's a wonder you can make it through the day  
Well, you can't sleep cause your problems are to  
deep  
And there's always something getting in the way  
And when you turn on the evening news  
Mass confusion is the only thing you see  
Well there's no question that we need a new  
direction  
Cause we all could use some peace and harmony  
chorus  
Love is gonna save the day  
You've gotta believe it
