

# Whitney Houston, You're Still My Man

On the day that you left me  
You said you had no regrets  
There's a bond between us  
That hasn't been broken yet  
And the feelings between us  
Will never disappear  
How can you be far away  
When your spirits here

[Chorus]  
You're still my man  
Nothing can change it  
We still belong together  
You're still my man  
Nothing can change it  
Our love will last forever

And the seasons of our love  
Will always change I know  
Maybe that's the reason  
You felt you had to go  
But soon you'll be missing me  
Darling, I know you well  
There's a magic we share together  
And no one can break that spell

[Chorus]  
I'll wait for you  
The thought that keeps me going each day  
Is I believe you still love me  
I love you more than words can say

[Chorus-Repeat]
