Wilburn Brothers, I'll Keep Right On Lovin' You

Turn your head each time that we meet treat me like a stranger on the street
Do a million things to make me blue but I'll keep right on lovin' you
Go on bein' gone when I call makin' me the biggest fool of all
Hurt me anyway that you want to but I'll keep right on lovin' you
Yes I ought to tell you you're wastin' your time
For there's only one to love for this heart of mine
Love me or leave me whatever you do I'll keep right on lovin' you
(steel)
You know what it takes to make me cry even tell me it's our last goodbye
Go as far away as you want to but I'll keep right on lovin' you
Yes I ought to tell you...
I'll keep right on lovin' you
