Wild Orchid, Tic Toc

Sometimes when two people meet You know that undeniably There can be an instant chemistry Do you feel the magic here with me Ohh, let's not wait No need to hesitate Better find out before it's too late

Chorus

Tic toc look at the clock Love is just a moment away Don't stop, make my world rock Come closer don't make me wait Tic toc the doors are all locked Love is just a moment away

Never gonna stop Gonna make you rock To the rhythm of the Tic Toc

Longing for those sleepless nights
Sunday morning lazy days and candlelight
The anticipation drives me wild
Fantasies they just won't leave my mind
Ohh let's not wait
Destiny said this is fate
Just imagine what we could create

Chorus

All night long Never gonna stop Gonna make you rock To the rhythm of the Tic Toc Feel the rhythm of the Tic Toc Just hold on Take it nice and slow Wanna make it slow Like the rivers and the oceans go Feel the current deep down below We'll be free It's a mystery Wondering what will be Fortune tellers are telling me In the crystal ball they can see You and me

Ohh, time keeps ticking away It goes by so fast Let's live in the moment, let's make this love last

Chorus
