

Wilki, Crazy Summer

Wake me up when You go away
Maybe i go mad, but i wanna say
We have no way
Live on me till tomorrow
When you kiss (me) in the break of day
I feel your hair all over my face
I know i need you
Live on me till tomorrow
Let's try to run into the rain
Let's recall the glare of flame
Try to remind me day by day
Of that crazy summer
That hot crazy summer
Wake me up in the break of day
I wanna feel your hair on my face
Want to remind you
That hot crazy summer
That hot crazy summer
Where do we go now
Come on bejbe :-)
Where do we go my friend
