

Will Young, Lover Won't You Stay

Verse1

Ohhhh
I can't deny this strange desire in my heart
So close together we can never be apart
Heal my pain
Let me feel your fire burn alive
Mmmm the more you give the more I want
Crazy aint it just
A man like me a girl like you
Is drowning in this love
So won't you come

Chorus

So won't you come
Here and fill this empty space between us
The moment seems to steal us away
Girl you're the one
And I get the strangest feeling
Something tells me summer's on its way
Lover won't you stay

Verse 2

I swear that I'm addicted
You could say I can't let go
The more that you invite me girl
The more I want you so
Breath in me
Let your love come down like fire and rain and rain
The mood is right, the time is tight
Lets get heavenly
So lock the door, kill the light
Just give yourself to me

Chorus

Bridge

I get this feeling
The summer feeling
Lover won't you stay
Lover won't you stay
Oh yeah yeah

Chorus

Lover won't you stay x3
Lover won't you
