

# Will Young, You And I

Cut to the chase  
Your pretty face  
Searched outer space  
Leaving no trace  
Making love in the heavens above  
Flying so high  
You and I  
You and I  
You and I

Can't get my head around you  
Can't bear to be without you  
I Can't stop from thinking about you  
You turned my life around

Can't get my head around you  
Can't bear to be without you  
I Can't stop from thinking about you  
You turned my life around

Time standing still  
Inch time to kill  
Cheating the wheel  
There are moments to steal  
So another day,  
Gets brushed away  
Preoccupied  
You and I  
You and I  
You and I

Can't get my head around you  
Can't bear to be without you  
I Can't stop from thinking about you  
You turned my life around

Can't get my head around you  
Can't bear to be without you  
I Can't stop from thinking about you  
You turned my life around

Yeah  
Yeah yeah yeah  
Oh oh yeah

Making love in the heavens above,  
Flying so high  
You... and.... I

Can't get my head around you  
Can't bear to be without you  
I can't stop from thinking about you  
You turned my life around

Can't get my head around you  
Can't bear to be without you  
I can't stop from thinking about you  
You turned my life around

Can't get my head around you  
Can't bear to be without you  
I can't stop from thinking about you  
You turned my life around

I Can't get my head around you  
I Can't bear to be without you  
I can't stop from thinking about you  
You turned my life around

I Can't get my head around you  
I Can't bear to be without you  
I can't stop from thinking about you  
You turned my life around

till fade.....

Will Young- From now on  
Track 7
