

# Willamette Stone, Never Coming Down

I've gotta say I'm feeling better than I should  
Don't got a lot but I know life is always good  
Oh, come on over, bring some friends, we'll have a time  
Don't got a lot but right now I'm feeling fine

So many people rushing back and forth to work  
So many people walk around all faced and hurt  
Let's have a drink, let's cut it loose, let it unwind  
Someday we'll be looking back knowing we did it right

We got tonight,  
We got tonight  
Forever yours, forever mine  
I'm feeling good  
I'm feeling high  
I'm feeling like I'm never coming down  
I'm never coming down

So tell me now,  
Are you in or are you not?  
I don't wanna rule the world,  
I just wanna sit on top

Let's raise your glasses to the best and to the worst  
Here's to the feeling that you just can't put to words

Now everyone's leaving and you're wondering what to do  
Now everyone's leaving,  
It's only me and you

You leave your clothes and whispered somethin' in my ear  
When I'm with you, my girl,  
I don't know any fear

We got tonight,  
We got tonight  
Forever yours, forever mine  
I'm feeling good,  
I'm feeling high  
I'm feeling like I'm never...

We got tonight,  
We got tonight  
Forever yours, forever mine  
I'm feeling good,  
I'm feeling high  
I'm feeling like I'm never coming down

I'm never coming down /4x
