

# Willie Nelson, Be That As It May - Paula Nelson

Be That As It May

Oh, oh it's cold outside  
And the hardest part is I  
Can't take away the chill in the night  
And I've been pining on and on  
How everything is wrong  
As if to throw away everything I own

And the weather changed again  
But the city looks the same  
Though I can't find the sun  
From the chill in the air  
Be that as it may, I've fallen on better days  
Be that as it may, I've fallen on better days

Nowhere is a place  
Somewhere hidden in the face  
Of every dream I've had that doesn't quite exist  
It doesn't pay to blink  
Cause it's later than you think  
You're whole life could change with or without me  
A promise is a lie  
With a prettier disguise

Like I'll love you  
For the rest of my life

Be that as it may, I've fallen on better days  
Be that as it may, I've fallen on better days

Six o'clock in the morning and here I am  
Morning without warning once again  
So I'm playing it cool  
I'm playing it down cause it's easier on me  
All the way around

And I don't wanna say goodbye  
But I'm tired of this and I  
I'm running out of time.  
I'd fly if only I could fly  
But I barely walk this time, I'm running out of time

It feels like dying I feel like crying  
I'm Running out of time
