Willie Nelson, Dreams Come True

Dreams Come True (with Norah Jones)

I just thought, that you would like to know That I would, do anything, just to make your dreams, just to make your dreams come true

Well I just thought, that you would like to know, that I... I would climb the highest tree Just to make your dreams, just to make your dreams, come true

I know, that it seems like, I am full of hot air But my heart is in the right place I swear, I swear

I just thought that you, would like to know, that I... I would do anything Just to make your dreams, just to make your dreams come true

Now I know that it seems like, I'm full of hot air But my heart My heart is in the right place I swear, I swear

And I just thought that you, would like to know That I... I'd do anything... anything, just to make your dreams

Just to make your dreams come true

Just to make your dreams, just to make your dreams...

..

Come true
