

Willie Nelson, Dreams Come True - Norah Jones

(willie)

I just thought that you would like to know
that I would do anything just to make your dreams just to make your dreams come true

(norah)

well I just thought that you would like to know that I... I would climb the highest tree
just to make your dreams just to make your dreams come true

(willie)

I know that it seems like I am full of hot air
but my heart is in the right place
I swear I swear

(norah)

I just thought that you would like to know that I... I would do anything
just to make just to make your dreams come true

(willie & norah)

now I know that it seems like im full of hot air
but my heart
my heart is in the right place
I swear I swear

(norah)

and I just thought that you would like to know
that I... I'd do anything... anything just to make your dreams

(willie)

just to make your dreams come true

(willie & norah)

just to make your dreams just to make your dreams...

...

come true
