

# Willie Nelson, Following Me Around

She always follows me from town to town at least her mem'ries follow me around  
Whenever I clear my mind so she can see I feel her love come rushing into me  
I know that I will never be the law looks as though her memory's bound to haunt  
And I know my love will always stay in bounds  
With her memory always follow me around  
Follow me around follow me around follow me around follow me around  
And I know my love will always stay in bounds  
With her memory always following me around  
( guitar )  
Follow me around follow me around...  
With her memory always following me around
