

# Willie Nelson, Golden Earrings

There's a story the gypsies know is true  
That when your love wears golden earrings  
She belongs to you  
An old love story that's known to very few  
But if you wear those golden earrings  
Love will come to you  
By the burning fire, they will glow with every coal  
You will hear desire whisper low inside your soul  
So be my gypsy  
Make love your guiding light  
And let that pair of golden earrings  
Cast their spell tonight
