

# Willie Nelson, I Let My Mind Wonder

I let my mind wonder and what did it do  
I just kept right on goin' until it got right to you  
Can't trust in one minute it's worst than a child  
This old face without conscience and it's driving me wild  
When I let my mind wonder I try to keep my mind busy  
With thoughts of today but in terrible mem'ries seem to lure it away  
My lonely heart wonders if there'll ever come a day  
When I can be happy but I can't see no way  
Cause I let my mind wonder...
