

Willie Nelson, Make Way For A Better Man

Give me talkin' now you tried to make her happy you couldn't make her happy
Make way for a better man than you
You tried your brand of lovin' she couldn't stand your lovin'
Make way for a better man than you
I held back cause you and I were friends
But old buddy this is where our friendship ends
I'm takin' over now those signals she keeps sendin' means your romance is endin'
Make way for a better man than you
(guitar - steel)
Those fancy words you told her were not enough to hold her
Make way for a better man than you
I guess you're in your lockout you came to back and struck out
Make way for a better man than you
I held back cause you and I...
Make way for a better man than you
