Willie Nelson, Make Way For A Better Man

Give me talkin' now you tried to make her happy you couldn't make her happy

Make way for a better man than you

You tried your brand of lovin' she couldn't stand your lovin'

Make way for a better man than you

I held back cause you and I were friends

But old buddy this is where our friendship ends

I'm takin' over now those signals she keeps sendin' means your romance is endin'

Make way for a better man than you

(guitar - steel)

Those fancy words you told her were not enough to hold her

Make way for a better man than you

I guess you're in your lockout you came to back and struck out

Make way for a better man than you

I held back cause you and I...

Make way for a better man than you
