

Willie Nelson, Staring Each Other Down

You're hangin' on his arm
She's holdin' mine
A fool must have said love was blind
We're shouting I love you's
With people all around
And they don't hear one sound
Let her eyes do the talkin'
And her eyes do the walkin'
And her eyes do the slippin'
Around staring each other down

And we're both on to
How long a slow song
Would be for us now
This timebomb we're holding
Is so near exploding right down
So let her eyes do the talkin'
And eyes do the walkin'
Her eyes do the slippin'
Around staring each other down
Staring each other down
