

Willie Nelson, Thanks Again

Thanks for what a little love you gave to me
And thank you for my escape from misery
I searched and found heaven and then lost it again
You were mine for a little while so thanks again
I'm not sorry forgiving all my love to you
And if they ask if I still love you I'll have to say I do
My heart was dead and you've made it live then died again
You were mine for a little while so thanks again

(guitar)

My reason for existing is now reveal
I'm just here to show the world how blue a man could feel
My heart was dead and you've made it live and die again
And then they learn from my mistakes so thanks again
