## Willie Nelson, When We Live Again

When we live again When we live again Let's relive again The time we know now I'll find your face again We'll find our place again Let's plan to meet again, dear When we live again I'll know you by love and wisdom In your eyes And I'll wait for you Outside the chambers of the wise And let's not lose the day The progress love has me Let's plan to love again, dear When we live again I'll know you by love and wisdom In your eyes And I'll wait for you Outside the chambers of the wise
