

Willie Nelson, Where Do You Stand?

From somewhere behind you
You've come with your suitcase in hand
Hey, what's your plan?
Where do you stand?

The world's still divided
And you're still undecided, decide if you can
Hey, what's your plan?
Where do you stand?

Where do you stand?
Where do you stand?
Hey, what's your plan?
Where do you stand?

It's time for commitments
It's time for a showing of hands
Hey, what's your plan?
Where do you stand?

Surely there's someone with courage
To say where he stands
Hey, what's your plan?
Where do you stand?

Where do you stand...
Where do you stand...
