

Willie Nelson, Who Do I Know In Dallas

Who do I know in Dallas who can I call on the phone
Who do I know in Dallas that will help me forget she's gone
Shirley consoled me in Phoenix and Jeannie in old San Antone
But who do I know in Dallas that will help me forget that I'm alone
(steel)
I can't spend the night without someone the lonelies will drive me insane
So who do I know in Dallas that will make me be happy I came
Who do I know in Dallas that will make me be happy I came
