

Willie Nelson, You Made Me Live, Love And Die

I cried and cried my heart out
But what good does it do
Crying never bothers
Anyone so cold as you
I've thought the whole thing over
And now I'll go
And find a better place
Where angels heal
Broken hearts like mine
You made me live
You made me love
And now you'll make me die

I'll never live or love again
There's no need now to try
I'll say farewell to this old world
This is my last goodbye
You made me live
You made me love
And now you'll make me die

(steel)

And just for night is over
I'll never see the day
I'll hold your picture to my heart
Then I'll be on my way
I'll say farewell...
