

# Wind Walkers, The Bends

Loose ends  
Sever those ties  
I see no progress is made  
That weight  
All of your eyes  
How long til my next mistake  
I'm feeling it all around me  
Pressing the air I breathe  
She said when cutting me out  
How could this happen to me?  
Yeah, nothings been changing for all my life  
Pressure from every side

What if I break?  
Go all insane  
How will you see me?  
You said it not me  
All on your face  
Knew you were leaving  
I swear I'm growing far too close to the pressure  
The way it always holds all of me together

Yeah, what if I break?

Thin lines blurring all the time  
All of my promises break  
What's yours never was mine  
That came from a vulnerable place  
I'm feeling it all around me  
Choking the words I speak  
She said when cutting me out  
How could this happen to me?

What if I break?  
Go all insane  
How will you see me?  
You said it not me  
All on your face  
Knew you were leaving  
I swear I'm growing far too close to the pressure  
The way it always holds all of me together

Yeah, what if I break?  
(Yeah, nothings been changing for all my life  
Pressure from every side)

What if I break?  
Go all insane  
How will you see me?  
You said it not me  
All on your face  
Knew you were leaving  
I swear I'm growing far too close to the pressure  
The way it always holds all of me together
