

# Within Temptation, In Vain

Beautify all I know  
Keep on dancing  
Let it all turn to gold  
When the dream touches ground  
The demons walk in  
And I know what awaits

Nothing of the heart remains  
Even if you could have stayed  
We've been here long enough, long enough  
To know it's all in vain  
Everything we try to say  
Up until the final day  
I guess we said enough, said enough  
To know it's all in vain (Oh, oh)  
All in vain (Oh, oh)  
All in vain (Oh, oh)  
All in vain (Oh, oh)  
All in vain (Oh, oh)

See the world through a tear  
Keep on breathing  
Soul has dried you're not here  
Just so hard be the way  
The demons walk in  
Now I know it's too late

A priceless glory  
A melting memory[?]  
To offer nothing that  
I know

Nothing of the heart remains  
Even if you could have stayed  
We've been here long enough, long enough  
To know it's all in vain  
Everything we try to say  
Up until the final day  
I guess we said enough, said enough  
To know it's all in vain (Oh, oh)  
All in vain (Oh, oh)  
All in vain (Oh, oh)  
All in vain (Oh, oh)  
All in vain (Oh, oh)

To the memories, but I can feel them fading  
All in vain, there's nothing left to save me now  
I can take and cross the border  
I can take and cross the border  
Leaving everything behind for you to follow  
Everytime I walk away I wanna turn around  
I wanna turn around

But nothing of the heart remains  
Even if you could have stayed  
We've been here long enough, long enough  
To know it's all in vain  
Everything we try to say  
Up until the final day  
I guess we said enough, said enough  
To know it's all in vain (Oh, oh)  
Vain  
Yeah oh oh oh  
I guess we said enough, said enough

To know it's all in vain (Oh, oh)

All in vain  
All in vain  
All in vain  
All in vain
