

# Wiz Khalifa, All Of A Sudden

Call me to reach me

Call me to reach me  
Only when you wanna see me  
Oh, then we go dancin'  
I can feel us romancin'  
Girl, why you actin'  
Goddamn, you attractin'  
All the attention  
You make a good impression

(I see the moon in your eyes)  
All of a sudden (you go out of sight)  
All of a sudden (you go out of sight)  
All of a sudden (you go out of sight)

I hear you when you callin'  
I need you in the mornin'  
I feel you when you walk in  
Conversation, I'ma spark it  
No time, I ain't gon waste it  
My time, I'm gonna take it  
Slow it down, we love makin'  
Speed it up, say that's your favorite  
Say something good to me  
Say something good to me  
Say something good to me  
Say something good to me  
I got just what you need  
We gon drink and roll the weed  
Ain't gon fall in love with me  
That's just how it's supposed to be

Call me to reach me  
Only when you wanna see me  
Oh, then we go dancin'  
I can feel us romancin'  
Girl, why you actin'  
Goddamn, you attractin'  
All the attention  
You make a good impression

(I see the moon in your eyes)  
All of a sudden (you go out of sight)  
All of a sudden (you go out of sight)  
All of a sudden (you go out of sight)

(Uh) Ooh, wonder where you went to  
I know what we went through, 'cause at first, we were cool  
Now you up in my room, doin' what grown people do  
You want me, me on you  
Hit me up when we're through  
And say something good to me  
Say something good to me  
Say something good to me  
Say something good to me  
Hit it so good, you go to sleep  
Didn't know you was a freak  
Got me fuckin' up my sheets  
Before I know, you gone away

Call me to reach me  
Only when you wanna see me  
Oh, then we go dancin'

I can feel us romancin'  
Girl, why you actin'  
Goddamn, you attractin'  
All the attention  
You make a good impression

(I see the moon in your eyes)  
All of a sudden (you go out of sight)  
All of a sudden (you go out of sight)  
All of a sudden (you go out of sight)

Yeah  
She like real cool  
She don't wanna be bothered  
She like, I'ma fuck wit you  
Just don't lie to me  
You gettin' lied to bitch  
Call me to reach me  
Call me, reach me
