

Wiz Khalifa and Currensy, No Clout Chasin

Hah, good one, Richard
Z cooking on the track

Some of them supposed to go, some of them supposed to stay
I ain't tryna ruin yours, I'm tryna make a way, yeah
I be at the top, that's my favorite place
That money gonna come, I don't gotta chase it
Them bitches gonna come, I don't gotta chase em
I'ma keep getting love, I don't gotta chase it
Diamonds in my chain, watch, and my bracelet
Got love for all my dawgs, I don't gotta chase it

They say I smoke too much, I say I don't smoke enough
You ain't dealing with what I'm dealing with, bruh
Remembering when the crib I lived in didn't look like this
The carpet had burn holes, nigga, we was in there smoking
And thinking on how to grab us some mid
Me and my dog was close to going half on a chopper
And like a pound of weed and just lockin' in and gettin' it
But then lightening hit
Wasn't trying to change the world
But we fucked around and did it
Kept all my cars, but I kept trading in woman
Neon lights spell out my company name on the side of the building
It's going down in my life, baby girl, but I really be chilling
Reminiscing, lost wages, bum deals
I should've ran magnifying glasses on them pages and that's for real, yeah

Some of them supposed to go, some of them supposed to stay
I ain't tryna ruin yours, I'm tryna make a way, yeah
I be at the top, that's my favorite place
That money gonna come, I don't gotta chase it
Them bitches gonna come, I don't gotta chase em
I'ma keep getting love, I don't gotta chase it
Diamonds in my chain, watch, and my bracelet
Got love for all my dawgs, I don't gotta chase it

Give it all back to my son, millions plus one
I don't do 'less it's fun, to focus the funds
I remember taking trips with weed in the trunk
Now police don't even trip when we rolling up
Legal stunts, got a pound with each our name on it
Setting up the family, that's the main focus
Game polished, did our best to keep these lames off us
Turned down what the labels offer
Now everything in our name
Influenced the game with our slang
It's all a hundred percent, never changed
All my niggas stay solid as the friend
You broke, won't never fix you again

Some of them supposed to go, some of them supposed to stay
I ain't tryna ruin yours, I'm tryna make a way, yeah
I be at the top, that's my favorite place
That money gonna come, I don't gotta chase it
Them bitches gonna come, I don't gotta chase em
I'ma keep getting love, I don't gotta chase it
Diamonds in my chain, watch, and my bracelet
Got love for all my dawgs, I don't gotta chase it
