

Wiz Khalifa, BTS

My momma ain't raise no fool nigga
Matter of fact, maybe she did (ha ha ha)
My momma raised a fool (haha)
But that don't mean we can't get rich(rich)
Too rich (too rich, too rich too rich)
That's what they say(they say, ah ah ah ah)

Humble beginnings, rich ass endings
Pockets on swole, big ass benjies
Started off losin', man it wasn't choosin'
Stuck with my nigga's, now we all winnin'
Rollin' up paper, ball like a Laker
Top on the building, I'm high as a 'scrapper
What can I say now, cops know my name now
No time to play 'round, I'm rich and I'm paid now
Stay on that peaceful shit for nigga's that spray rounds
Hear all the talk, they gon' come see you any day now
Try not to fade out, try to find a way out
Nobodies innocent nigga, get down or lay down
Made so much money but look how much I'd paid out
Don't trust the bank no more so I went and got a safe in my house
Guess all these diamonds on my wrist, what you blinkin' about
It's all my money on my mind when I'm thinkin' about

Try to be the best that I can
Make all the right decisions, handle business like a man(I try)
You know I try to do shit with my heart
They talk but I don't listen
I just finish what I start
You know I tried the nigga's that said I can't (I try)
They got the right decisions, handle business like a man
You know I try when people tell me (I try) I should change
Sometimes I'm done with trying, I'm just trying to be the same

Nigga's still hating, critics still waiting
Said that I'd change my ways and start catching these cases
But never said I'd stop counting these faces
Flyin' new places, buying them cases
Nigga's want problems, I don't entertain it
Cause if it's real problems, It's not entertainment
I'm rollin' a joint up, precise like a painter
The grind is what made us, the grind is what made us
Now the nigga's that I grew up with lookin' richer
Too much turnin' up, the club owners tryin' to censor
Tatted everywhere my full body full of scriptures
Pull up in the phantom, paparazzi takin' pictures (pictures)
Sellin' so much swag, we should be your swag vender (Vender)
Big winner in the club, big cash spender
Throwin' signs to my man like he a damn pitcher
Some shit you can't witness, my nigga we been business

Try to be the best that I can (I try)
They got the right decisions, handle business like a man (I try)
You know I try to do shit with my heart
They talk but I don't listen
I just finish what I start(I try)
You know I tried the nigga's that said I can't (Itry)
They got the right decisions, handle business like a man (Itry)
You know I try when people say I should change
Sometimes I'm done with trying, I'm just trying to be the same
