Work all night, fall through the trap in the early morn'
She don't waste any time she getting what she want
Don't hesitate, baby relax your mind hit this KK and elevate
Kicking it with some real niggas nothing like them clones
Should be soaking up all this swag instead they going through your phone
Girl, Instagram ain't got that many likes
First she ain't smoke when I approached her now she rolling them right
And holding 'em tight, going all night, you know I'm the type
I lower the lights, and

Boo you nasty throw your legs up, I'm in my zone
Take off your dress take off your bra I'm tryna make you moan
Make yo ankles touch, my thumb in yo' pussy
Caressing your butt and tell you, how much I wanna fuck
But I like watching you, freak me before I hit that ass
Oh you, wanna share me tonight, then call your friend from Georgia Tech
Cause I enjoy her neck, and I enjoy your breasts
And y'all can fuck me first and eat each other next
I'm so blessed, I'll enjoy the show
Weed smoke, camera open on my iPhone
