

# Wiz Khalifa, G.O.A.T Flow

Detain the boss, maybe it's 'cause these 'fits I been gettin' off  
Cardo got wings  
Okay  
You niggas still lost  
Uh

Tryna detain the boss  
Maybe it's 'cause these 'fits that I'm getting off  
Outfits, murder one, I ain't killin' 'em soft  
Big crib, that's a mansion and not a loft  
I ain't never falling off, won't take part in that  
Some niggas get money, don't know how to react  
Ain't a million dollars, my name ain't on the contract  
She ain't a boss, you can have her back  
I'm where her loft at  
Smoking out, playing my favorite songs  
Let her hit the weed and she sing along  
Pink diamonds, Rolexes telling the time  
And if I wanna make a movie, she gon' tag along  
I ain't one for boasting and bragging  
I'm the type to put it in my raps, you find out that most of it happened  
You smell the smoke, you know it's the captain  
Bring in the bottles, I roll 'em and pass 'em

When I wake up in the morning  
I'm rollin' up the weed and I'm thinking 'bout you  
And what we gon' do, yeah  
I might take you back to my home  
Smoke all them joints and I'm thinkin' 'bout you  
And what we gon' do

I got it legalized  
And now it's me and my homies when I need to fly  
My money a bigger size  
And if she ain't coming home tomorrow, I'm the reason why  
For my team, down to ride, you see it in my eyes  
Thirteenss on the side, my trees crystalize  
'Bout the life to live, I ain't missing mine  
Leave it all for my kid  
I can hear 'em hatin' from the distance  
The world's filled with all kinds of paper, I'm tryna get it  
Treat her so good that she think of me when I'm finished  
Going so hard they just wait for the intermission  
But I ain't never letting up  
Never rushing my moves  
I just wait for them to slack off, giving me the perfect opportunity  
Then I set 'em up  
Chain cold as the weather in December  
This that G.O.A.T. flow, I know you remember

When I wake up in the morning  
I'm rollin' up the weed and I'm thinking 'bout you  
And what we gon' do, yeah  
I might take you back to my home  
Smoke all them joints and I'm thinkin' 'bout you  
And what we gon' do

Yeah, yeah, yeah  
I tell her what I do  
Yeah  
I tell her what I do, do  
Yeah, yeah, I tell her what I do  
Yeah, yeah, no, no, I tell her what I do
