

# Wiz Khalifa, Hype Me Up

Never leave the house without the pack, where my doobie at?  
Take a L and try to doubleback, we ain't doin' that  
Say she mine but I know it's cap, I've been through with that  
Need someone to hype me up (Hype me up), hype me up  
Need someone to hype me up (Hype me up), hype me up  
Need someone to hype me up (Hype me up), hype me up  
Need someone to hype me up (Hype me up), hype me up (Hype me up)

I ain't got a gun but their hands to the ceilin'  
I ain't palm readin' but I got 'em in their feelings, yeah  
Ain't Vanilla Ice but I'm iced out, chillin'  
Was the good guy 'til they made me the villain  
Was gon' get a room but they gave me a villa  
I got games sport center  
Twenty bands for the dinner  
Twenty dips in a Sprinter  
What's a zip to a pinner?  
Never been afraid to play my cards  
What's a risk to winner?  
Barely hang out with niggas these days  
What's a lame to a real one?

Never leave the house without the pack, where my doobie at?  
Take a L and try to doubleback, we ain't doin' that  
Say she mine but I know it's cap, I've been through with that

Never turned my back on my guys when they need me  
Gotta get respect for my job, it ain't easy  
In a good mental state and God is the reason  
This is plain jane season  
Fresh up off the plane in Japan, I ain't leavin'  
They say seein' is believin'  
Well, here's a briefcase with a million dollars even  
This all week, no days off  
This hard work gon' pay off  
I made myself a promise young  
I would never work a day job  
Put it in the safe, never know when I'm gon' need that  
Came here with my gang, you don't know where your homies at  
Gave you a lot of game, you don't owe me back  
You say you a boss, gotta show me that

Never leave the house without the pack, where my doobie at?  
Take a L and try to doubleback, we ain't doin' that  
Say she mine but I know it's cap, I've been through with that  
Need someone to hype me up (Hype me up), hype me up
