If you ain't all the way down then get from round  
Jogging pants I run the town  
My home girl dancing in the ace so she making money now  
I like a hustling ass bitch so we fucking now  
79 Malibu make it bunny hop  
To the dog house that's the money spot  
I run up in there get my money  
Really living what I'm talking bout  
The driveway look like a parking lot  
I block my own Bentley and I got to let myself out  
Built this empire myself without all the fucking handout  
So fuck what a pussy nigga crying bout
