

# Wiz Khalifa, No Limit

We just go, we don't know no limit, limit ooh  
We just go, we don't know no limit, limit ooh  
We just go, we don't know no limit, limit ooh (So is you 'bout it 'bout it?)  
We just go, we don't know no limit, limit ooh (So is you 'bout it 'bout it?)

Uh, then go crowd around it  
And tell everyone that live in your whole town about it  
Gon' and roll up that good weed, I put about a pound in  
And get high as the mountains  
I remember the days when niggas used to have some love for a g  
But now they doubt it  
Would've been down with me and my team, but now they outted  
Put my all in my everything and what I got is  
So much money I can't even motherfuckin' count it  
Uh, and you can have all of this  
After all the hard work you can have all of this  
Money and the cars, clothes, you can have all of this  
Roll up in the best clubs, you can have all the women  
Homie when the checks come, you can have all of this  
When you put your family on, you can have all of this  
When you let the stress go, you can have all of this  
You lookin' at the best, so that's why I got all of this

We just go, we don't know no limit, limit ooh  
We just go, we don't know no limit, limit ooh  
We just go, we don't know no limit, limit ooh (So is you 'bout it 'bout it?)  
We just go, we don't know no limit, limit ooh (So is you 'bout it 'bout it?)

Uh, uh-huh, no pain  
Oh, uh-huh, no gain  
Who said we can't change the world?  
Look how we changed the game  
Uh, uh-huh, no pain  
Oh, uh-huh, no gain  
Who said we can't change the world?  
Look how we changed the game  
Look how far up we came, shit  
Look how my chain done changed  
Man look at they faces  
Now when they look in our faces  
Look when they look in our faces  
They look at us and we're famous  
And I don't know where my plane is  
I haven't been home in ages  
Got people blowin' my phone up  
So many important waivers  
My marijuana's the loudest  
That mean my weed is the greatest  
I give a fuck about a hater

We just go, we don't know no limit, limit ooh  
We just go, we don't know no limit, limit ooh  
We just go, we don't know no limit, limit ooh (So is you 'bout it 'bout it?)  
We just go, we don't know no limit, limit ooh (So is you 'bout it 'bout it?)

Uh, how far you gotta go 'til you feel like you're already home?  
And how much you gotta spend  
Til you realize that you really never goin' broke  
How many motherfuckers gotta tell you that you changed  
Cause you got a little change  
And how the fuck they gon' tell you you the best  
When they told somebody else the same thing  
(Come on) Cause you fly first class every day?  
(Come on) Cause you roll up all that grass every day?

(Come on) Cause you spend up all that cash every day?  
(Come on) Drivin' them foreign cars fast every day?  
(Come on) And if you ain't, this the kind of shit you need to get on  
I'm talkin' Audimar Piguets leather seats I sit on  
This ain't just how I feel today, this the shit I been on, I been on

People always talkin' about what they think they know  
About what they think I'm doin', how I feel, and where I go  
But no matter how much money I make, I'm gon' stay the same  
Since I've been up at the top ain't too much changed  
Cause we already on  
We already on  
We already on

And on and on, and on and on  
Never smoked weed that was quite this strong  
Never took a flight this long  
Never drank champagne in Italy  
Never spent a night in Rome  
But it's funny cause those are the exact same things  
That helped me write this song  
Caught up livin' a life where tryin' to do all the right things feels wrong  
So I keep rollin' and lightin' up and prayin' to God that we live long

It's summertime, lights fade away  
It's wintertime, let's make it summer  
Don't look down, keep your head up  
Don't look down, keep your head up  
It's summertime, lights fade away  
It's wintertime, let's make it summer  
Don't look down, keep your head up  
Don't look down, keep your head up

People always talkin' about what they think they know  
About what they think I'm doin', how I feel, and where I go  
But no matter how much money I make, I'm gon' stay the same  
Since I've been up at the top ain't too much changed  
Cause we already on  
We already on  
We already on
