

Wiz Khalifa, Something Special (feat. Thundercat)

Come back, come back, come back, come back to me
I wanna roll one up, wanna roll one up with you
Come back, come back, come back, come back to me
I wanna roll one up, wanna roll one up with you

Met her at a party, I was sippin' gin
She was burnin' on the chronic
Thunder beat the Lakers now there ain't no Super Sonics
Chain hell a flossy
Waitin' for you to come over here and put it on me
You down to ride and you like say no more
Try to hide it but I can't no more
And God blessed me with game but I ain't playin' though
Instead of fuckin' with lames
(I just want you)
You ain't ain't said nothing but a word
Twist up the herb
Tell your friends they ain't gotta catch feelings
There's enough room for all ya'll – skinny, fat, tall
Believe me, I done seen it all, done it all
Born to ball, do it big, never small
The weed I'm smokin' on
Come over here, tell your homegirls go ahead
Roll another joint and get straight to the point

Come back, come back, come back, come back to me
I wanna roll one up, wanna roll one up with you
Come back, come back, come back, come back to me
I wanna roll one up, wanna roll one up with you

Now the hoes done shown up, the money done blown up
But every time you callin' a nigga, I pick the phone up
Don't care about my pockets being swole up
Long as I show love, show up, my top won't go up
Everyday's a new flight, at night's a new hotel
Fuck you on plane, it don't matter girl I won't tell
Both feet in the sand, you know I'm the man
We gone stick to the plan, watch 'em shit on demand
Early morning eatin' breakfast in the hot tub
Pedicure, Manny, full massage with the face scrub
Smokin' OG, fuck the police
Sun glowin' off your skin
Said she never been there before, she tryna do it again
I can't only fuck once, I'm tryna do it again
Hold up, it's meant to be
No luck, here's some weed, roll up
Make sure the neighbors know us

Come back, come back, come back, come back to me
I wanna roll one up, wanna roll one up with you
Come back, come back, come back, come back to me
I wanna roll one up, wanna roll one up with you

You know what it is!
Hey, hey, hey, shit, damn
Woah
What I'm smokin' is special
That ass is lookin' special
You make everything in the world look special
And you rep that gang baby girl
Sledgro, RMB, Thundercat, what up Drew, Chev what up cuh
