

Wolf Alice, Freazy

Over the days,
For the window out of the deepest of my
Thoughts, it's okay
I found my place

Found on the way
To the play time never really thought
I could, it's okay
You would live in the back of my brain

Did you really wanna, weird Alice
Did you really wanna, with the war?
You can hate us all you want but
It don't mean nothing at all
You can join us is you think you're well
You can join us if you're feel worth try
Our life is cool

I built a pause
That will darken my head
Over and over again
Sit to step to the light at the end
Make believe
I was a prisoner to my thoughts
To all my tears
Look at me, I don't read in between!

Did you really wanna, weird Alice
Did you really wanna, with the war?
You can hate us all you want but
It don't mean nothing at all
You can join us is you think you're well
You can join us if you're feel worth try
Our life is cool

I will meet you where the grass is greener,
Hats on the clock, no act ain't watching the [?]
I will meet you where the grass is greener,
Hats on the clock, no act ain't watching the [?]
I will meet you where the grass is greener,
You can join us is you think you're well
You can join us if you're feel worth try
Our life is cool
