

Wondermints, Louise

She lives but she don't move

She loves but she don't groove

She thinks without no reason

That girl is out of season

Louise, you don't know Louise

You don't know Louise, you don't know Louise

(just can't please her, can't please her)

She's high but I'm so down

Her head goes round and round and round

She stares with a crystal eye

But how that girl can hypnotize

Louise, you don't know Louise

You don't know Louise, you don't know Louise

(just can't please her, can't please her)

Louise, you don't know Louise

You don't know Louise, you don't know Louise

(just can't leave her, can't leave her)

Well I've heard you been dreaming now that's something new

You got a school teacher to talk to you

Well you got your daddy's car when the weather's clear

But you can drive mine if you sit right here, oh yeah

Louise, you don't know Louise

You don't know Louise, you don't know Louise

(just can't leave her, can't leave her)

Louise (just can't please her, can't leave her)
