[BEAT SWITCH]

[Gza]

Yeah, pump that shit, testin  
Check, 1,2, yes, yes, yes  
Yes, yes y'all, to my niggas y'all  
To my click y'all, you can't quit y'all  
Wu-Tang bangin' that dope shit y'all  
That make you wanna roll up and smoke shit y'all  
To the beat y'all, you can't sleep y'all  
On my flow y'all niggas don't know y'all  
You see my style calm but wild  
You witness the rhyme, nothin but dimes  
The eightball murder verse, freestyle or rehearsed  
I wreck emcees whether I'm last or first  
What, what, what, what, hazardous dart  
Visual long forgotten art  
That fell apart, til the blood ran from the heart  
Pump through the street, Rza make re-break beats  
Packed seats, rapid fire raps at off track meets  
And an arm tank, high rank, heavy metal shank  
Blow 'em off the plank when they ships approach the bank  
Wu niggas rollin, throwin the first rap slogan  
Heroes of Hogan, shot up the military clothin'  
Quickly blow up, rolled up in rappers like pennies  
My brother stack tracks on the behalf of many  
With the wisdom, power of, science from experts  
Self applyin, that put giants in the network  
The compact disc and televised live cults  
Will multiply our strength, on a worldwide note  
Yes, what, what

[Deck]

Yes, yes y'all, you don't stop  
You keep on, til the break o dawn  
Ah yes, yes y'all, you don't stop  
Ah Wu-Tang known to make your body rock
