

# Wu-Tang Clan, The City

[unknown conversation which carries over from the last track]

That's black?

Whattup God?

Aiyyo Shorty got beef with that nigga? Word?

[\*blam, blam blam\*]

Oh shit!!! Yo!

Hold the fuck up

Aiyyo yo, eight niggaz down (just enough)

Fuckin around with my sound (ci-ty)

Yo, bring backup (ci-ty)

Fuckin with me, and mine

Murderous

[Inspectah Deck]

Check it, yo

The world is shifty, we livin just enough for the city

The rough witty killa bee sting just like the jiggy

My Family Stone, foes attempt to gradually clone

Label them my anus and the casualty's home

It glows coffin, Wu stormin like the light brigade

ride the wave like Frankie Avalon

As I decipher AIDS crime pays

The law's long arm be tryin to strongarm, walkin timebombs

before I bomb firearm

The chalm smoker, I hit the dread with a poster

He toke with his own love and expose the black toaster

Composer was shook

I took your bad looks for joke get your back broke

Deep throat this murder I wrote

The antidote be seekin like a buried treasure

By every measure lethally inject your whole sector

Wanted dead or alive

Rebel I escapes across the desert sand

leavin no footprints to trace

Keep a war face, in your place

Conceal the baby knives on the North breaks

I still shine in shady times

Yeah, yo

We livin just enough (livin just enough)

Just enough (in the ci-ty)

Just enough, for the ci-ty

Yo, in the jungle

I make moves like Iron Monkey

Plots to bump me off D.O.T. be on the hunt for me

We stay hungry, for money drugs and guns

Ones who fake get caught in the crossfire for crumbs

Know the science be my Goddess

The facts tell gats sell like sex and violence

And break the project silence, a vision

This is way beyond four corners, escape this mental prison

Before we're all goners, now embrace the world

for the world war is ocean bomber

Visionary soldier comma

My code of honor, mind still start from the drama

Trauma sent the victim, witness them run, scream in horror

Military chopper come gun down the slum

The outcome do or die Son it's bound to come

Mentally aware I see truth within the square

The future's here catch me on computer software

Warfare's inevitable, Rebel I hold several government official

It's a thirty-eight special, that steps through

Like Nat Turner create a spectacle

I may die in the scuffle but I'm takin forty devils

We livin just enough

Just enough

Just enough  
For the ci-ty  
Killa beez, sting McEEEEZ, yeah, Wu
