## X-PERIENCE, We are what we are

I want to play a melody I want to sing a song Come sing it with me A sweet melody We want to shout it out That we are going to be free Come sing it with me Were going to be free Open your eyes And you will realize We are what we are Were going to fight To fight for our right We are what we are We want to feel like beeing free Free as a bird can be Its only a dream But dreams can come true We want to leave the bad times We leave everything behind We leave everything behind And we sing
