

Xandee, Always You

I never took the time
to wait and see the day
and if I traveled all my life
I never found my way
Here, now, with nothing more to loose
whatever we go through, it's only you
Look at you, look at me, it's a mistery to see
but we can leave this world behind
look at you, look at me
thats the way it's gonna be
it's always you and me
I look into your eyes
I know that you will stay
cause love will come as a surprise
and take the pain away
Here, now, theres nothing i can do
whatever we go through, it's only you
Look at you, look at me, it's a mistery to see
but we can leave this world behind
look at you, look at me
thats the way it's gonna be
it's always you and me
Never had a place no
to keep me warm al night
but then I turn to you and
I know everything is al right
you could be my castle, you could be my home
so, don't walk away
don't hide away, whatever you say
Look at you, look at me, it's a mistery to see
but we can leave this world behind
look at you, look at me
thats the way it's gonna be
Look at you, look at me, it's a mistery to see
but we can leave this world behind
look at you, look at me
thats the way it's gonna be
it's always you and me
