

Xandee, Heaven

I'm out and down
when you're not around
as we should be together
I know by now
there's a love to be found
if we care enough to hold on
Trough the pain the days are bringing
there's a place to be, I want you to see
Feels like heaven
every time you're near me
sounds like heaven
calling me your way
Comes a time, comes a sign
every hour, every day
I can feel like heaven with you
When you're long gone
I'm faithful and strong
cause nothing else can mather
I'm so much more than you're looking for
if you take the Chance to hold on
Trough the pain the days are bringing
there's a place to stay, should we loose our way
Feels like heaven
every time you're near me
sounds like heaven
calling me your way
Comes a time, comes a sign
every hour, every day
I can feel like heaven with you
Feels like heaven
every time you're near me
sounds like heaven
calling me your way
Comes a time, comes a sign
every hour, every day
I can feel like heaven with you
